

SAANGAATI

(THE GUIDE)

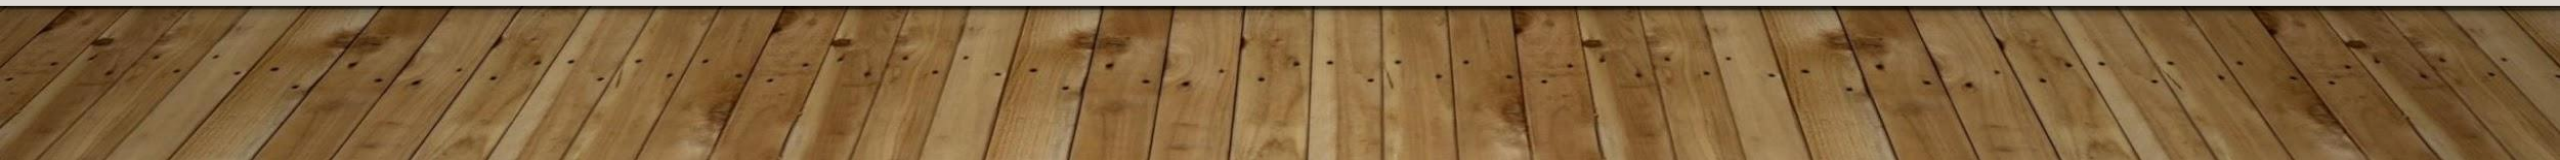

SAANGAATI

June 2016 Status Report

- Project Activities
- Analysis of Soil-testing data
- Some Glimpses

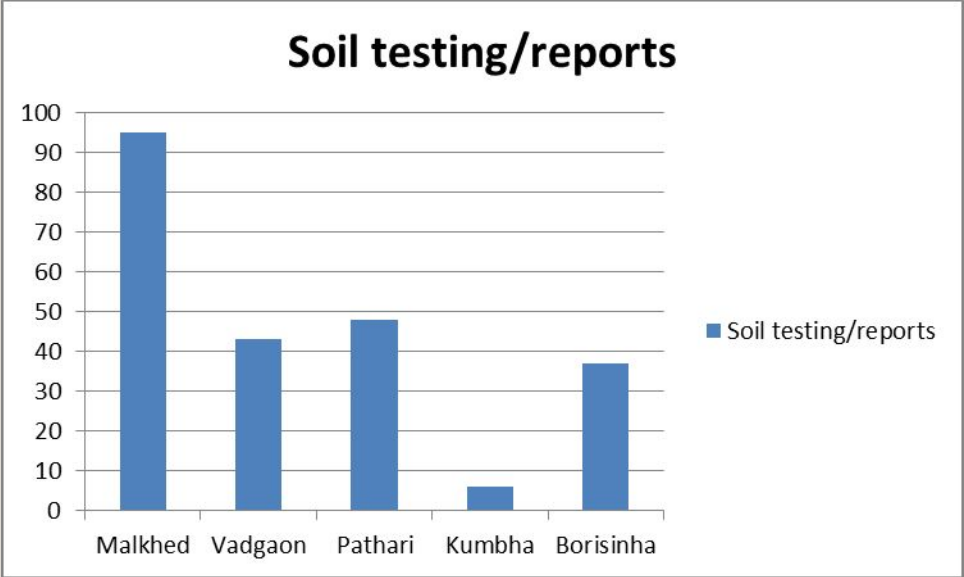

CURRENT STATUS: JUNE 26 2016

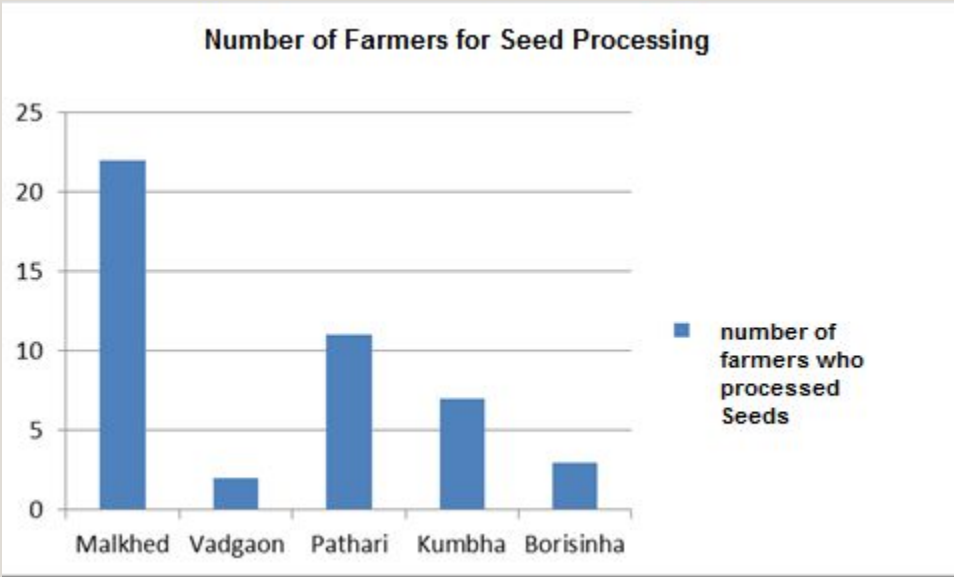

- Project Saangaati was discussed with **1500** farmers in **50 to 52** villages in Yavatmal district.
 - Need about **12 field coordinators** out of which **11** are already recruited.
 - Completed Soil Testing for **229** farmers. Goal is to reach **400** by this sowing season. Phase II by **November 2016** (2nd season for harvesting) plan to do soil testing for **more 200** farmers.
 - **Three** crops will be cultivated, **75% cotton** (out of which 95% is BT cotton). **25%** crop will be between **Soybean** and **Tur dal (lentil)**.
 - Organic fertilizers like **Jeevamrut** as well as organic pesticide such as **Dashaparni Arka** (10 leaf extract))are being prepared by the farmers. They do not contain any chemicals and have proven effective..
 - Deendayal volunteers will create Liquid fertilizer and also teach other farmers to make it on their own. **500** liters of Liquid fertilizer is already produced in **10** different places within the district out of which 2 of locations have **1000** liters storage.
 - These female leaders , once recruited, will be given short briefing/training by Deendayal onto which information we need to collect for reporting from these **600** women.
- 

Soil Testing & Seed Processing - June 2016

229 Farmers participated in Soil Testing

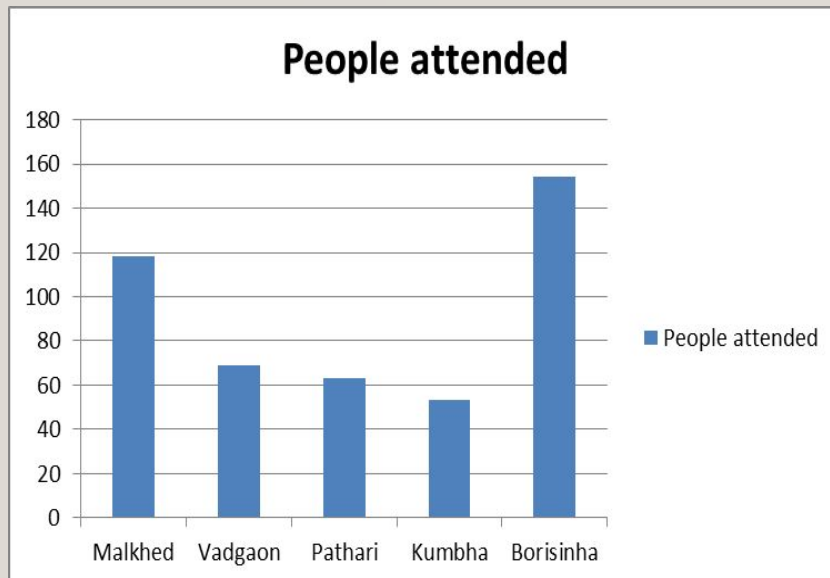

45 Farmers in Seed Processing

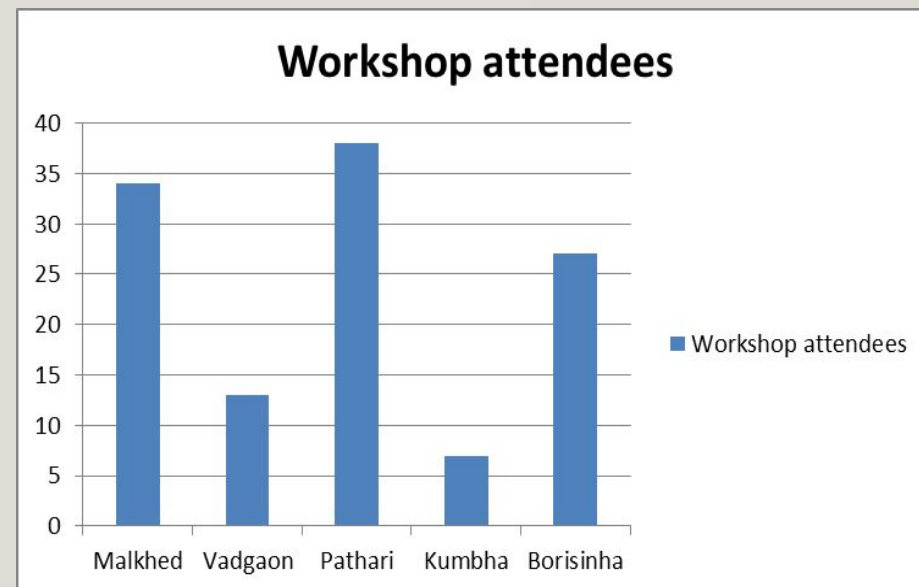

Meetings/Workshops - JUNE 2016

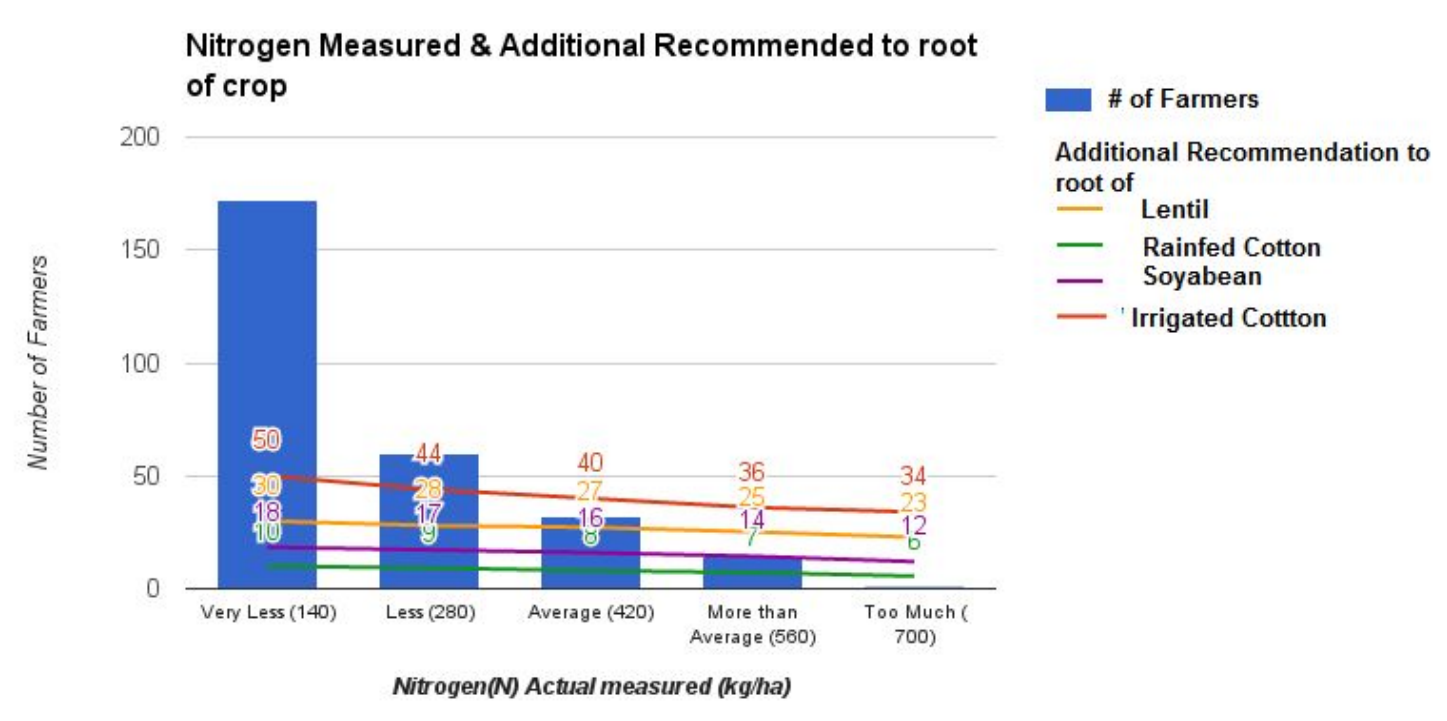

457 Farmers attended Meetings

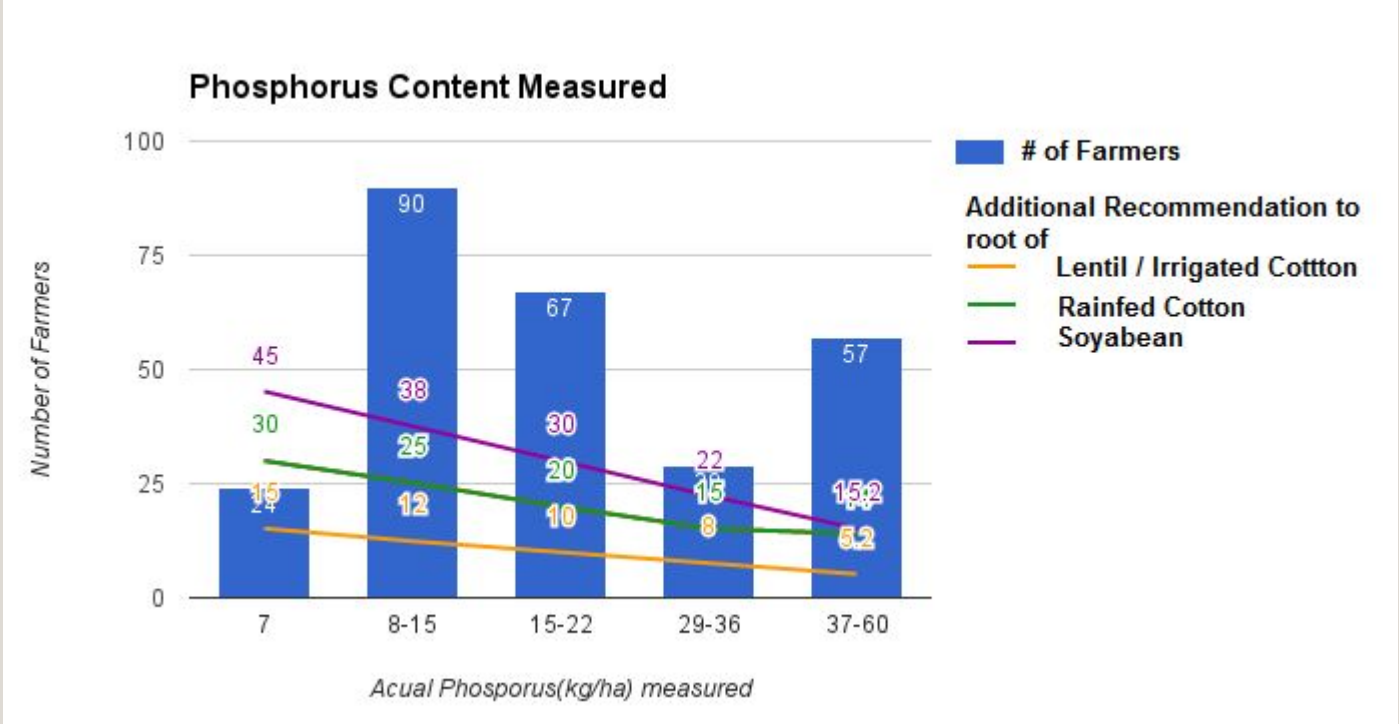

119 Farmers attended Workshops

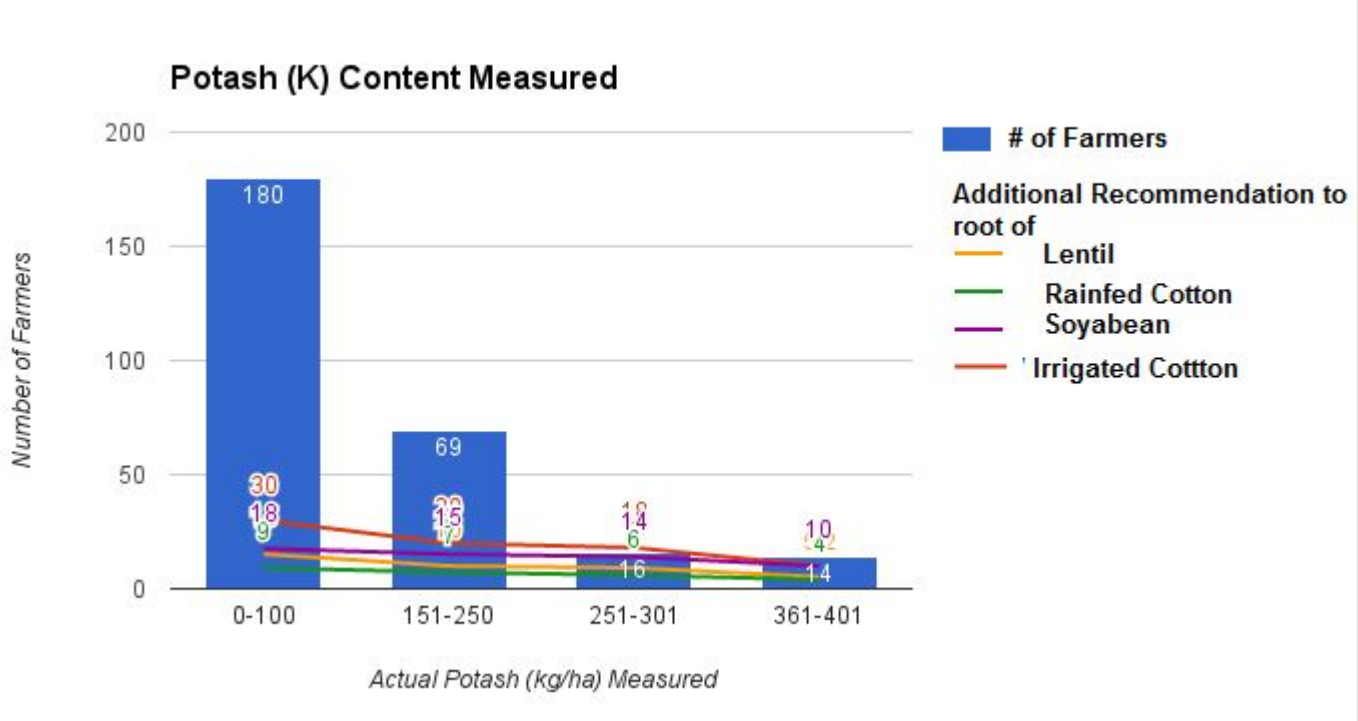

Soil Testing Data – Nitrogen content for 279 farmers

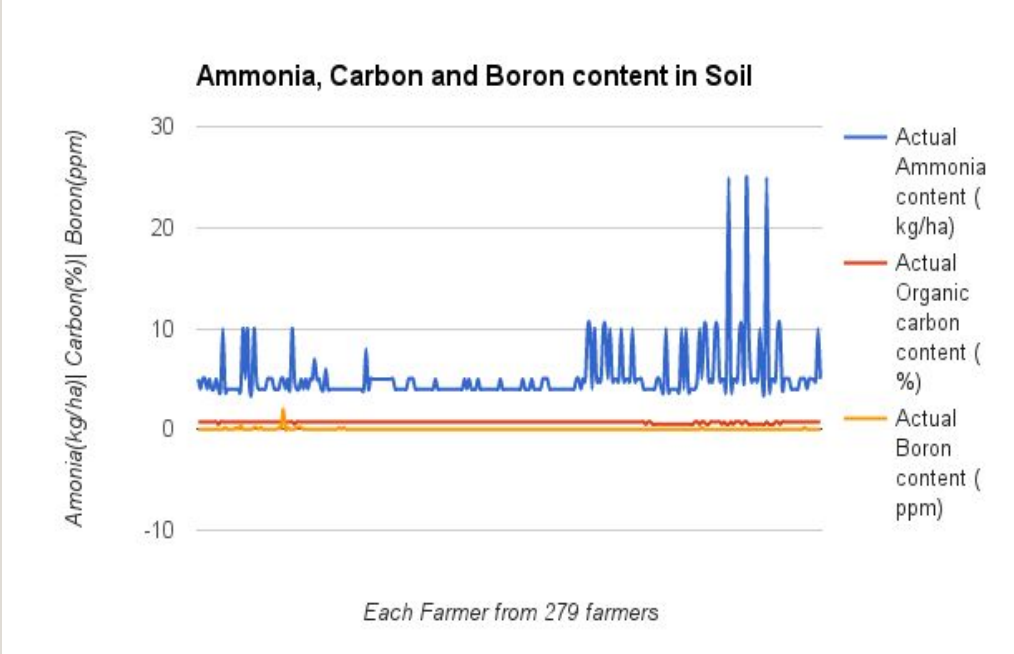

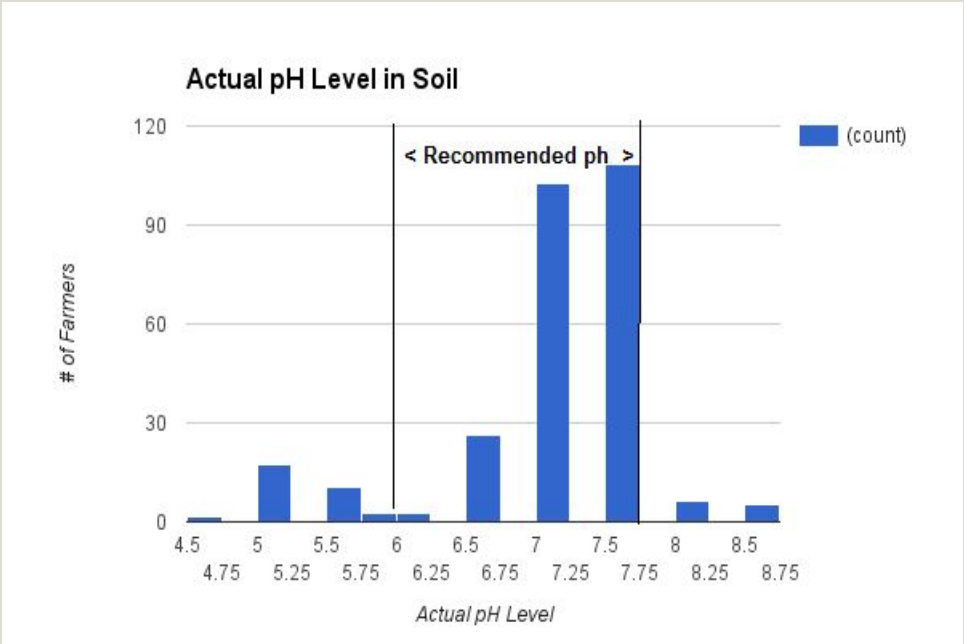

Soil Testing Data – Phosphorus content for 279 farmers

Soil Testing Data – Potash content for 279 farmers

Soil Testing Data – pH, Ammonia, & Boron contents

GLIMPSES OF SAANGAATI..

Liquid Fertilizer preparation and spraying

Soil Testing Glimpses, Soil Moisture !

Regular Soil Testing & Quality (close-look) of Farm due to chemical fertilizers/pesticides.

Glimpses of June Saangaati

Left: A stirring mechanism developed by Field Worker-Sharad bhau

Right: Dashaparni Arka Preparation by Field workers
